

**Third Annual Western Canadian  
Structural Biology Workshop**

***Frontiers in Structural Biology***

**November 20 – 23, 2003**

**The Banff Centre  
Banff, Alberta**

**Gene Regulation**

Ronen Marmorstein (Wistar Institute)  
Seth Darst (Rockefeller University)  
James Williamson (Scripps Research Institute)

**Cancer Biology**

Greg Verdine (Harvard University)  
John Tainer (Scripps Research Institute)  
Frank Sicheri (University of Toronto)

**Membrane Proteins**

Sriram Subramaniam (National Institute of Health)  
Gary Cecchini (San Francisco VA Medical Center)  
M. Joanne Lemieux (University of Alberta)

**X-ray Crystallography**

Paul Adams (Lawrence Berkeley National Laboratory)  
Thomas Earnest (Advanced Light Source)  
William Thomlinson (Canadian Light Source)

*The Alberta Synchrotron Institute is a not-for-profit association of the Universities of Alberta, Calgary, and Lethbridge, funded by the governments of Alberta and Canada, and by the three Universities. The ASI has been formed to prepare Alberta's academic and industrial communities to take full advantage of the Canadian Light Source, through open programs for synchrotron awareness, training, and access.*
